BOLANDE COMPANY PROFILE

Foshan Bolande industrial company limited is a professional engaged in the research, development, produce, sale and service of all types of ceramic tiles, sanitary ware and other building materials since 2008. The company has introduced the most advanced automatic production line in Italy, SACMIT200 press, long roller kiln with the largest annual output and other first-class equipment, and produces more than 300 kinds of ceramic products with different specifications from 600mm*600mm to 1600mm*3200mm. Product series Supporting specialization and diversification, the annual output of ceramic wall and floor tiles is more than 30 million square meters.

Bolande Ceramics is committed to pursuing zero defects in product quality and providing users with the best ceramic products. It has established an enterprise internal control standard that is stricter than European standards and national standards, and has successively passed ISO9001 quality management system certification and ISO14001 environment Management system certification. Bolande's products have been tested by the China Building Materials Inspection and Certification Center, and the radioactive indicators comply with the GB6566-2001 standard. They are classified as Class A environmentally friendly products, and their production, marketing and use are not restricted.

In recent years, we are cooperating with many 5stars hotel like Wyndham Hotel, Marriott, Hilton and Many government project, Bolande Ceramics has successively won many honorary titles such as "Famous Brand Product of Guangdong Province", "3C Certification", "Contract-abiding and Promise-keeping Enterprise for Five Consecutive Years", and "National A-Class Trustworthy Enterprise".
